

Dynavax Announces Fourth Quarter 2005 Financial Results Conference Call and Webcast

BERKELEY, Calif., March 2 /PRNewswire-FirstCall/ -- Dynavax Technologies (Nasdaq: DVAX) will announce its fourth quarter and full-year 2005 financial results on Wednesday March 15, 2006.

The announcement will be followed by a live webcast at 5:00 p.m. ET of a discussion by Dynavax Technologies management of fourth quarter 2005 financial results.

The webcast can be accessed on Dynavax Technologies' website at <http://www.dynavax.com>. The webcast is also being distributed over CCBN's Investor Distribution Network to both institutional and individual investors. Individual investors can listen to the call through CCBN's individual investor center at www.fulldisclosure.com or by visiting any of the investor sites in CCBN's Individual Investor Network. Institutional investors can access the call via CCBN's password-protected event management site, StreetEvents (www.streetevents.com).

An audio replay of the webcast will be available until March 22, 2006 by dialing 888-286-8010; conference identification number 28867241. International callers can dial 617-801-6888; conference identification number 28867241.

About Dynavax

Dynavax Technologies Corporation discovers, develops, and intends to commercialize innovative products to treat and prevent allergies, infectious diseases, and chronic inflammatory diseases using versatile, proprietary approaches that alter immune system responses in highly specific ways. Our clinical development programs are based on immunostimulatory sequences, or ISS, which are short DNA sequences that enhance the ability of the immune system to fight disease and control chronic inflammation. Dynavax's pipeline includes: TOLAMBA™, a ragweed allergy immunotherapeutic, that has completed a Phase 2/3 clinical trial, and is in a supportive clinical trial in ragweed allergic children; HEPLISAV™, a hepatitis B vaccine that is currently in a pivotal Phase 3 clinical trial; a cancer therapy currently in a Phase 2 clinical trial; and an asthma immunotherapeutic that has shown preliminary safety and pharmacology in a Phase 2a clinical trial.
